

Integrated care Innovation Fund

Healthcare Improvement
Unit(HIU)

Queensland Clinical Senate

“Integrated care is an aspiration-its inspiring to deliver seamless care of any service required by a person across primary, secondary and tertiary care. Usually it relates to people with chronic and complex conditions and the complete management of those conditions requires the input of many health practitioners.”

Aims of fund are

- Drive innovation across community, primary and hospital interface.
- Provide non-recurrent funding to HHSs and PHNs or NGOs partnerships to implement innovative care models.
- Demonstrate sustainability within existing recurrent funding envelopes across the partnerships at cessation of the project.
